FROM: Jack A. Wilson, Deputy Commissioner  
Bureau of Environmental Protection

DATE: June 28, 1979

SUBJECT: Drum Task Force Meeting

At Secretary Mooney's request, a meeting has been scheduled for Thursday, July 5, at 10 a.m. in the 5th floor conference room to review the current status of the various industrial waste disposal and storage sites in Bullitt, Jefferson, and Hardin Counties. The Secretary will be expecting a brief technical report on each of the sites from the Division of Hazardous Material and Waste Management and the Division of Water Quality and a status report on the legal action from the Office of General Counsel. I believe it is the Secretary's intent to begin to consider future departmental actions in light of these reports.

Your attendance will be appreciated.

Roger Blair I would suggest that Bob Sholar be present and have prepared a summary of status on <sup>rk</sup>Brickyard and the Valley at a minimum.

Bob Blanz - As we discussed earlier we will need a summary of the health and welfare of the water and the fish.
